About Schema Pro

Schema Pro is a premium WordPress plugin designed to add structured data markup to your website without touching a single line of code.

Built by the same team behind popular products like Astra Theme and Spectra, Schema Pro has earned the trust of over 50,000 users and powers more than 4 million websites worldwide.

What makes Schema Pro special?

The plugin uses a simple click-and-select interface that lets anyone—even complete beginners—implement advanced schema markup in minutes.

No technical skills required. If you can send an email, you can use Schema Pro.

Who is it for?

- Bloggers who want rich snippets in search results
- E-commerce site owners running WooCommerce stores
- Digital agencies managing multiple client websites
- Local businesses wanting to appear in Google's knowledge panel
- Content creators aiming for featured snippets and enhanced SERP display

Schema Pro supports 15+ schema types including Article, Product, Service, Course, Recipe, FAQ, Review, and more.

It's 100% compatible with Advanced Custom Fields (ACF) and works seamlessly with any WordPress theme or page builder.

The plugin also includes live schema testing, so you can validate your markup before it goes live. Plus, with unlimited website usage on all plans, you can use it across your entire portfolio without restrictions.

Why This Black Friday Sale Is Worth It

Let's talk numbers. Schema Pro rarely goes on sale, and when it does, the discounts are modest at best. This Black Friday deal is genuinely the biggest price drop you'll see all year.

Here's the breakdown:

The **Annual Plan** normally costs \$79, but during this sale, you're paying just **\$69**—saving you \$10. That's a solid discount for a year of premium features, priority support, and regular updates.

The **Lifetime Plan** is where things get really interesting. It usually retails at \$249, but right now it's down to **\$189**. You're saving \$60 upfront, plus you'll never pay for renewals, support, or updates again. Ever.

Honestly, if you're serious about SEO and plan to use Schema Pro long-term, the Lifetime option is a no-brainer.

I've seen too many people grab the annual plan, only to realise they're paying year after year. With the Lifetime deal during the Schema Pro Black Friday sale 2025, you pay once and you're done.

And here's something else worth mentioning: Schema Pro comes with a 14-day money-back guarantee. So even if you're on the fence, you can try it risk-free and get a full refund if it's not right for you.

Research consistently shows that websites optimised with structured data see higher click-through rates, better organic traffic, and improved rankings. Schema Pro makes it ridiculously easy to tap into those benefits.
